## DR. DONALD DUTTON

Dr. Dutton is a Colorado native, valedictorian with undergraduate degree in

molecular, cellular, and developmental biology. He worked in a clinical research lab during his undergraduate studies, focusing on genetics of prostate cancer.

He attended medical school at the University of Colorado Health Sciences Center, subsequently receiving his board certification of family medicine at St. Joseph's Hospital. While at St. Joseph's, Dr. Dutton trained in outpatient and inpatient settings, including ICU level care.

His extensive background in molecular/cellular biology/virology provides Dr. Dutton with a solid background in the mechanisms of cellular machinery and in particular the mechanism by which the mRNA vaccines work as well as their safety.
